

# Environmental Policy

## 1.0 Purpose / Scope

BorgWarner is a community of people committed to protecting the environment for the benefit of society, future generations and each of us as individuals. From the innovative products we make to reduce emissions and improve fuel economy to where and how we make them, we strive to conserve, recycle and reuse our resources efficiently, through the use of responsible and sustainable environmental practices.

## 2.0 Application

This policy applies to all of BorgWarner's worldwide operations. Individual locations may create additional environmental policies specific to their operations.

## 3.0 Objectives

To deliver on our commitment to the environment and minimize our impacts concerning our manufacturing activities, products and services, BorgWarner will:

- Identify potential environmental impacts posed by each location, taking into account the specific nature of the business conducted there;
- Identify and implement practicable measures to reduce waste, prevent pollution and conserve natural resources;
- Conduct operations in compliance with applicable federal, state and local environmental laws and regulations;
- Commit to continuously reviewing and improving our products and processes that impact the environment; and
- Measure and monitor key environmental performance indicators (such as energy and water consumption GHG emissions) and regularly report results to management, the Corporate Governance Committee of the Board of Directors and our external stakeholders.

## 4.0 Responsibility

The business presidents, operating managers and environmental managers are responsible for the execution of and adherence to this policy. Accordingly, it is the responsibility of such business presidents and managers to report to the BorgWarner Legal Department if an environmental claim, complaint or notice of violation is received, if a nonroutine governmental inspection of the facility is requested or occurs, or if there is a spill, leak or release of hazardous materials (see Critical Event Reporting Process). Managers are to retain environmental records in accordance with the BorgWarner Record Retention Policy.

## 5.0 Interpretation

Any person with questions regarding the interpretation, scope, and application of this policy should contact the BorgWarner Legal Department.
