BORGWARNER LIMITED **MODERN SLAVERY AND HUMAN TRAFFICKING STATEMENT** Financial Year End: December 31, 2025

1. INTRODUCTION

This statement is submitted per the United Kingdom's Modern Slavery Act 2015, which requires certain companies doing business within the UK to provide information about their efforts to address the issue of modern slavery and human trafficking within their business and supply chain. BorgWarner fully supports these efforts, which align with Our Beliefs.

4. POLICIES

We maintain policies to ensure our requirements on modern slavery/forced labor are well communicated, integrated into our contractual framework, and agreed upon by all employees and business partners. These policies are periodically reviewed, benchmarked, and updated as the law and, in some cases, societal circumstances require. This includes our [Code of Ethical Conduct](#) and [Human Rights Policy](#), which were updated in 2023.

BorgWarner's suppliers are required to adhere to our [BorgWarner Supplier Manual](#), which prohibits the use of forced labor and human trafficking and was updated in May, 2025.

BorgWarner's Chief Compliance Officer and the Compliance Office are responsible for monitoring compliance with our policies. Across BorgWarner there are locally situated Compliance Coordinators responsible for compliance training and escalation of reports. In parallel, the Business and Enterprise teams also have responsibility for the ongoing monitoring, oversight, and management of suppliers to BorgWarner and accordingly share in the responsibility of ensuring that all suppliers comply with their obligations, including but not limited to human rights issues, in practice.

5. DUE DILIGENCE

To monitor and reduce the risk of slavery and human trafficking occurring within our supply chains, we have adopted the following key due diligence procedures:

- Our global supply chain team assess all new suppliers before we work with them.
- We undertake regular reviews with our main suppliers to ensure that they operate in accordance with our requirements and policies.
- Our supplier contracts provide us with the right to audit our suppliers including, where appropriate, conducting audits using both BorgWarner employees and external resources.
- Direct material suppliers are audited prior to entering a business relationship with BorgWarner and audited periodically once a relationship has been established.
- BorgWarner also engages a third party to release a Sustainability Assessment Questionnaire to our production suppliers with more than 25,000 USD in annual spend, which includes questions relating to human rights governance and working conditions. A third party is used to verify supplier responses to the questionnaire. The questionnaire is a requirement for production suppliers to be sourced for new business.

A breach of BorgWarner's relevant policies would constitute a breach of the supplier contract and would enable us to act up to and including termination of the arrangement with the supplier.

Our procedures are designed to:

- establish and assess areas of potential risk in our business and supply chains;
- monitor potential risk areas in our business and supply chains;
- reduce the risk of slavery and human trafficking occurring in our business and supply chains; and
- provide adequate protection for whistle-blowers.

6. ONGOING RISK AND COMPLIANCE

In addition to proactively having certain suppliers complete a Sustainability Assessment Questionnaire and adhere to our terms and conditions, which prohibit modern slavery and forced labor, the Company has multiple reporting platforms, including a global whistleblower hotline (phone and web-based) to allow internal and external parties to report directly or anonymously (consistent with applicable law) any activity that is contrary to BorgWarner's policies and Beliefs. The hotline is available in multiple languages consistent with our diverse global footprint.

Additionally, we encourage reporting to be made through managers, local or global human resources, legal, or compliance teams. Each report is taken seriously and is resolved using BorgWarner's investigation procedures, which include a strict anti-retaliation policy.

7. EFFECTIVENESS

BorgWarner's global supply chain management function continuously assesses its policies and processes to prevent acts of modern slavery and human trafficking from occurring within its global business and supply chain.
