New Replacement Turbochargers for Ford 2.7L EcoBoost Engines

BorgWarner Aftermarket North America is pleased to announce the release of four new replacement turbochargers for the popular Ford 2.7L “Nano” engine found in F-Series trucks. These trucks have entered the service cycle with high VIO numbers across North America. Coverage from 2015 through 2020 is supported. Installation gasket kits will be included and available to purchase separately as well.

Part numbers 53039880537 (LHS) and 53039880538 (RHS) service 2015-2017 models.

(Gasket kit part number 59007110220)

Part numbers 53039880596 (LHS) and 53039880672 (RHS) service 2018-2020 models.

(Gasket kit part number 59007110221)

As the first-fit supplier to the OE on these applications, your customers can be assured of robust, reliable service from a trusted supply and technology partner to the automotive Industry.

Complete cross reference and supporting detail is found on page two of this bulletin.
