

BorgWarner liefert variable Nockenwellenverstellung für Hybrid- und Benzinmotoren eines ostasiatischen OEMs

- *Optimierte Ventilsteuerung verbessert Kraftstoffeffizienz und Leistungsabgabe*
- *Fortschrittliche Technologie erfüllt nordamerikanische Tier-4-Emissionsstandards*
- *Stärkt die langjährige Partnerschaft zwischen BorgWarner und dem führenden ostasiatischen Automobilhersteller*

Auburn Hills, Michigan, 6. Februar 2025 – BorgWarner baut seine langjährige Partnerschaft mit einem führenden Automobilhersteller in Ostasien weiter aus und liefert seine hochmoderne Technologie zur variablen Nockenwellenverstellung (VCT) für die neuesten Hybrid- und Benzinmotoren des Unternehmens. Die Produktion dieser Motoren soll im ersten Quartal 2026 beginnen.

„Unsere VCT-Technologie spielt eine entscheidende Rolle dabei, unsere Kunden bei der Einhaltung der neuesten Emissionsvorschriften zu unterstützen und gleichzeitig die Fahrzeugleistung und Effizienz zu steigern“, erklärte Isabelle McKenzie, President and General Manager, BorgWarner Drivetrain and Morse Systems. „Unsere langjährige Zusammenarbeit mit diesem Kunden unterstreicht unser Engagement, innovative Lösungen zu liefern, die die Zukunft der nachhaltigen Mobilität gestalten.“

Die variable Nockenwellenverstellung von BorgWarner optimiert dynamisch die Steuerung der Einlass- und Auslassventile, verbessert die Verbrennungseffizienz und reduziert Emissionen. Das System wird in mehrere Motoren der nächsten Generation integriert. Diese hochentwickelten Motoren kommen in einer Reihe von Hybrid- und Verbrennerfahrzeugen des ostasiatischen Automobilherstellers zum Einsatz, steigern die Kraftstoffeffizienz und verringern die Umweltbelastung.

BorgWarner ist seit 1986 ein geschätzter Partner dieses Kunden.

Forward Looking Statements: This release may contain forward-looking statements as contemplated by the 1995 Private Securities Litigation Reform Act that are based on management's current outlook, expectations, estimates and projections. Words such as "anticipates," "believes," "continues," "could," "designed," "effect," "estimates," "evaluates," "expects," "forecasts," "goal," "guidance," "initiative," "intends," "may," "outlook," "plans," "potential," "predicts," "project," "pursue," "seek," "should," "target," "when," "will," "would," and variations of such words and similar expressions are intended to identify such forward-looking statements. Further, all statements, other than statements of historical fact, contained or incorporated by reference in this release that we expect or anticipate will or may occur in the future regarding our financial position, business strategy and measures to implement that strategy, including changes to operations, competitive strengths, goals, expansion and growth of our business and operations, plans, references to future success and other such matters, are forward-looking statements. Accounting estimates, such as those described under the heading "Critical Accounting Policies and Estimates" in Item 7 of our most recently filed Annual Report on Form 10-K ("Form 10-K"), are inherently forward-looking. All forward-looking statements are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. Forward-looking statements are not guarantees of performance, and the Company's actual results may differ materially from those expressed, projected or implied in or by the forward-looking statements.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this release. Forward-looking statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond our control, that could cause actual results to differ materially from those expressed, projected or implied in or by the forward-looking statements. These risks and uncertainties, among others, include: supply disruptions impacting us or our customers, commodity availability and pricing, and an inability to achieve expected levels of recoverability in commercial negotiations with customers concerning these costs; competitive challenges from existing and new competitors, including original equipment manufacturer ("OEM") customers; the challenges associated with rapidly changing technologies and our ability to innovate in response; the difficulty in forecasting demand for electric vehicles and our electric vehicles revenue growth; future changes in laws and regulations,
